BASSANO, ALTA, THURSDAY, SEPTEMBER 4TH, 1913

No. 93

## Concessions Asked for Sash and Door Factory

Frances M. Horner Writes Council for Inducements For  
Establishment of Factory and is Offered Free Site.

"I should be obliged if you would let me know what inducements the Council would offer for the establishment of a sash and door factory in Bassano," wrote Frances M. Horner of Bedford, Eng. who has already interested Eng. capitalists in Bassano, to the Council this week.

Mr. Horner wanted full details as to the concessions he was likely to get in the way of site, power, water etc. and those who know Mr. Horner, know that when he embarks upon an undertaking he does not do it in any half hearted fashion. If he is able to get what he considers reasonable terms therefore, it is likely he will go through with the matter. The letter was brought to the attention of Council Tuesday night, when Secretary-treasurer Bond was asked to inform Mr. Horner, but the Council were willing to donate a free site.

## Men Hurt At Farm Colony

Tenets Again Stagnate, but Locals  
Without Such Disturbance Live  
as Usual

History repeated itself at the Finlay Made Farm Colony, north of Bassano, this week when for the third time this season five light horse teams ran away over the prairie. The team was not so heavy loaded as on previous occasions, but one man, Frank Walsh, being injured. Walsh had his ankle badly lacerated. A barking dog was given as the cause of the affair this time, the accident happening as the big teams were on the way to supper.

The teams are forbidden to run any more since the previous accident and were quietly walking towards the barn when one of the teams—eight horses—became excited at the barking of a dog. The plunging scared the other teams, and they were soon out of control. Strayed into the fence however they were brought to a stand still and all the drivers with the exception of Walsh escaped injury. Several of the horses were hurt and Dr. Rogers was hurried out to attend them while Walsh was brought into town and attended by Dr. Harris.

Raymond Stewart and Dr. Shaw met on Tuesday to investigate, and found a flourishing community. There are already several stores in the place, and the farmers have co-operated to get a Farmers' elevator this Fall. Steel will be in place shortly.

## Council Ask Department To Investigate

Alleged Siberian Methods in Case of  
Sam Hobbs Four Times Punished  
For Intoxicated Offences

Under the impression that "Siberian" methods had been adopted in fining Sam Hobbs a total of \$23 for technical offences committed at the same time as offences for which Hobbs had already been convicted and sentenced, Council Tuesday night upon motion of Counsellor James and Shop requested an investigation by the Attorney General's Department.

The circumstances as presented to the Council by Town Solicitor J. S. Mayr, showed an alleged high handed method of procedure, and some outspoken criticism directed at the way in which the thing was conducted by the Department Inspector.

The story of Mr. Mayor who made first hand enquiries were that Hobbs was three weeks ago fined for being drunk while intoxicated at Bassano and was sent to prison for five days for being disorderly while drunk at Bassano. He paid the fine and served the sentence and returned home.

A few days later the Department Inspector dropped off at Bassano. It is alleged he saw Hobbs on the street and asked him into the office of the Mayor. He consented to go, and then to the establishment was faced with further charges relative to the same night, to wit, getting liquor while intoxicated in the Palace Hotel at Glenora and in the Glenora Hotel at Glenora.

There were two separate charges and upon each Hobbs was fined \$5.00 and costs, the full amount of costs in each case being inflicted. It is alleged, the total coming to \$23.00. If these were the statutory fines, and Mr. Mayor, the first was allegedly irregular and out of order, and the Department should be posted as to the circumstances.

## Health Board Is Giving Typhoid Vaccine

The Health Board has been notified that the Provincial Authorities are prepared to supply typhoid vaccine free to those desirous of protecting themselves by this method against the disease.

Notify Dr. Harris, Health officer if you wish to take precautionary measures.

Line-up of Plow Teams at the Lunch Hour—This is the Bunch that Ran Away Tuesday last, Doing such Damage

## A "FARM FACTORY" ON BASSANO'S BORDER

By R. J. C. STEAD in Canadian Progress

One hundred horses and thirty men, five milky cows, eight pigs, and a few sheep are the assets of a "farm factory" which is being built by the Canadian Pacific Railway, Department of Natural Resources, at one of the colonies in the big Southern Alberta Irrigation block.

The colony where this particular equipment is employed is located some sixteen miles north east of Bassano and the work in hand is the preparation of "ready-made" homes for immigrants to Canada. The policy of preparing farms, complete with houses and barns, fencing, land cultivated and under crop, all ready for occupation by the newly-arrived settler, was inaugurated by the Canadian Pacific Railway some four years ago, and has proved so popular that the above figures now represent the equipment at only one of a number of points where this development work is in progress.

Although in some localities the work of breaking and cultivating the land is done by contract, in this particular colony the houses and equipment are owned by the company, the teamsters being hired as a farmer employs his help, the operations all being conducted under the direction of a foreman, experienced in the art of converting the "unbroken prairie into cultivated fields." A dozen of some of the planters are, farm lands recently arrived from Scotland, the others are Canadians or former Americans, in many cases settlers on nearby land take the opportunity to turn a little ready money while waiting for their own crops to come to the harvest. And it comes up rapidly too. Forty-five dollars a month and board is a lucrative salary.

The work of the development gang is to break up and prepare for crop a portion of each "ready-made" farm in the colony. The first operation is the plowing of the virgin prairie, and, in this, eighty five-horse teams, drawing 14-inch milky plows, and six, eight-horse teams, drawing 14-inch gang plows, are employed. The soil turned is four inches thick.

By comparison with prevailing farm wages a few years ago. Those who engaged by the year are paid \$300 for the 12 months, which of course is a lower rate for month, but guarantees employment through the slack winter season.

And the board!—Just as it would be for a hired engineer who would try to economize power costs by being superior, so, employers of labor, at least in the instance under consideration, practice wise liberality in the matter of the workmen's table. Abundance of fresh meat, well cooked; fresh bread, well baked; vegetables—seasoned, greens and potteries; a bill of fare both wholesome and appetizing. This perhaps was not more than expected, but when the men found themselves provided with a fine dining room and clean blankets without charge, they had occasion to congratulate themselves upon the attitude of their employers.

The interest in the physical well being of the men is reflected in the care of the homes. Each driver is held responsible for his team, under direction of the barn master. Morning and evening the horses are groomed, and all day Sundays they are allowed to run at liberty. Feeding is done by the stableman, one ton of hay and fifty bushels of oats constituting a day's supply.

The work of the development gang is to break up and prepare for crop a portion of each "ready-made" farm in the colony. The first operation is the plowing of the virgin prairie, and, in this, eighty five-horse teams, drawing 14-inch milky plows, and six, eight-horse teams, drawing 14-inch gang plows, are employed. The soil turned is four inches thick.

and quality of workmanship is not sacrificed to speed. Indeed, in doing this the hope is not to effect a saving in cost so much as to insure the land being left in perfect condition for next year's crop.

An average day's breaking by a five horse team is 2.4 acres, and by an eight horse team, 4.4 acres daily. The soil is free from stones, brush, or other natural obstructions, and is absolutely level.

At present the horses are broken, only by the painted canvas of the "ready-made" colony, not yet occupied by settlers, but within a year it will be contributing to the world's supply of wheat, and nowhere, perhaps can that task be undertaken under more favorable conditions. After the breaking heavy rollers are drawn over the fields, pressing the loose soil down firmly and conserving the moisture. The soil is then tilled three times, during which operation it is cut up into small sections and to a considerable extent reduced to a fine powder. It is then "hoisted" in operation which levels the slight irregularities of the field occasioned by the breaking and discing. Then follow the drag, harrows, and the year's operations are complete. Nothing more can be done until next spring when the seed for the crops of 1914 will be planted.

The work to be done by this development camp includes the breaking and cultivation of 1,500 acres; back-sowing (i.e., replanting the land first cultivated a year 1,500 acres, and harvesting 700 acres now in only in the adjoining colony of Southern Alberta.

Construction of the houses and barns, continued on page 8.

## C. P. R. is Specializing On Bassano Farm Lands

In Letter to Board of Trade C. P. R. Official Appeals for  
Co-Operation of Citizens.

## Homesteaders Want Relief

The homesteaders north of the Red River have joined hands in a determined effort to bring their grievances to the attention of the Government, and this Fall it is said W. J. Winnington of Winnipeg will be the official delegate to convey to the Department of the Interior the legitimate grumblings of the homesteaders against the pre-emption price, and several other matters. Among the incidental things he will bring to the attention of the Department is the opening up of road allowances every mile instead of every two miles east and west as exists at present. This system necessitates school children travelling three miles to school in many instances, and certainly creates a long route on occasions.

At present the horses are broken, only by the painted canvas of the "ready-made" colony, not yet occupied by settlers, but within a year it will be contributing to the world's supply of wheat, and nowhere, perhaps can that task be undertaken under more favorable conditions. After the breaking heavy rollers are drawn over the fields, pressing the loose soil down firmly and conserving the moisture. The soil is then tilled three times, during which operation it is cut up into small sections and to a considerable extent reduced to a fine powder. It is then "hoisted" in operation which levels the slight irregularities of the field occasioned by the breaking and discing. Then follow the drag, harrows, and the year's operations are complete. Nothing more can be done until next spring when the seed for the crops of 1914 will be planted.

The work to be done by this development camp includes the breaking and cultivation of 1,500 acres; back-sowing (i.e., replanting the land first cultivated a year 1,500 acres, and harvesting 700 acres now in only in the adjoining colony of Southern Alberta.

## Curling Club Meeting Tuesday

There will be a meeting to straighten out the affairs of the Curling Club at the Town Hall Tuesday next at eight o'clock when it is expected the matter can be so arranged as to permit of curling this winter.

A good attendance is hoped for, as the promoters are anxious to see some good results from the investment.

About \$500 is estimated will be the thing placed in shape.

H. H. Henderson of Saskatoon arrived in Bassano Tuesday to look over the ground from an investor's standpoint. He started out to motor from Saskatoon, but bad weather obliged him to leave his car at Medicine Hat, and do the remainder of the journey by train.

The first grain to be threshed and shipped this year from Bassano district went through the Robin Hood elevator this week. It was wheat from the Cassin Farm, which is being threshed almost as soon as it is cut. Every day grain is coming from this 3600 acre farm, and it is estimated that about sixty cars will be necessary to market the huge yield from this place alone.

Further evidence of the intention of the C. P. R. and department to specialize upon the sale of lands in the Bassano vicinity is forthcoming in a letter to the Board of Trade, from Allan Cameron, Sept. of lands, in which he also appeals for the co-operation of the citizens, claiming the company has not been altogether fairly dealt with in the past.

Secretary A. H. Bond wrote John F. Greening of the C. P. R. at Winnipeg asking if the C. P. R. intended concentrating upon their lands around Bassano, and apparently Mr. Greening had not the letter to Sept. Cameron for Mr. Cameron wrote:

Arthur H. Bond, Esq.,  
Secretary Board of Trade,  
Bassano, Alberta.

Dear Sir:—  
Mr. John F. Greening, Industrial Commissioner of our company has referred to me that portion of your letter of July 30, pertaining to our 1000 holdings of lands in the neighborhood of Bassano as the Board of Trade, and in connection with your suggestions as to the advisability of concentrating our selling efforts to lands in Bassano district would say that we have been making a continuous effort to sell these lands for some years, and that we do maintain a sales and equipment in the neighborhood of Bassano as the Board of Trade, and in connection with your suggestions as to the advisability of concentrating our selling efforts to lands in Bassano district would say that we have been making a continuous effort to sell these lands for some years, and that we do maintain a sales and equipment in the neighborhood of Bassano as the Board of Trade, and in connection with your suggestions as to the advisability of concentrating our selling efforts to lands in Bassano district would say that we have been making a continuous effort to sell these lands for some years, and that we do maintain a sales and equipment in the neighborhood of Bassano as the Board of Trade, and in connection with your suggestions as to the advisability of concentrating our selling efforts to lands in Bassano district would say that we have been making a continuous effort to sell these lands for some years, and that we do maintain a sales and equipment in the neighborhood of Bassano as the Board of Trade, and in connection with your suggestions as to the advisability of concentrating our selling efforts to lands ## Now We Shall See

It is apparent that with the completion of the Dam, that long expected event, the lands served by the North Fork of the Irrigation System will be put under water for next year; and will be sold at once by the C. P. R.

Thus we are on the threshold of witnessing the incoming of the settlement for which we have been waiting since—well, since Bassano was Bassano.

Built in the first instance on construction and homesteaded land, Bassano will now be established on the firm basis of settled lands at her door, and her strategic position as a railroad centre.

How big she will grow with those aids only time will tell.

It is difficult to conjecture. But it is the man with prophetic vision, and faith in that vision, who will come out on top.

## Work With the C. P. R.

The co-operation of the citizens is asked by the Land Department of the C. P. R. in aiding it to settle up its lands adjacent to Bassano.

In a letter to the Board of Trade, Supt. Allan Cameron hints that the Company has not had this full co-operation in the past, while the Company has returned good for evil by establishing at Bassano the only Sales Equipment in the Block. Of course he admits it is as much to the interest of the C. P. R. to settle these lands as it is to the people of Bassano. At the same time it is to our interests and every assistance should be given the Company.

While, personally, we have not heard of any incident that was intended as derogatory to the C.P.R. still we are prepared to believe Supt. Cameron that he has experienced this antagonism—although naturally loath to do so.

But we fail miserably and absolutely to see how holding back the settlement of the land, recognized as the best in Alberta, is going to help anyone out in town. It can't be from honest motives—otherwise there would be nothing heard but boasts. Land that can produce consistently its eighty bushels of oats is

land to be reckoned with as a practical agricultural force. It is worth selling and settling. It is a splendid investment for the man who buys. And to follow the matter further, the man who buys is a splendid investment for the town and country.

Let us help, not hinder, this great colonization undertaking.

## Strathmore Defends Itself

Poor, the Hon. Dr. Roche Minister of the Interior had a deuce of a time in Calgary from what we read in the papers, but he seems to have handled the diplomatic club, "It will be taken into our careful consideration, etc., etc." as well as the best of them.

Strathmore was there with a very real grievance, in which many other towns share, but which we, by the grace of Providence, and possibly a few mortals, escaped at birth.

It includes too much C. P. R. land in its limits.

Apart from the consideration of the rights of the C. P. R. in the matter, the problem is a grave one for the town, which, deprived of a fair amount of taxable property, is placed in an unfortunate financial position. The method of redress suggested—by Governmental aid—seems the only solution.

## Don't Spare the Limelight

The move of Council Tuesday, will at least have the effect of revealing the attitude of the C. P. R. on the question of liberality of limelight in the dedication of the Dam.

As we emphasized last week, it does not stand to reason the C. P. R. will leave the public to discover such a magnificent engineering attainment as lies at our doors, but that they will themselves focus public attention upon it.

The Council were of one mind that knowledge of their intention should be gained, for it is to the interests of the town that the event should be distinguished by some ceremony.

Up to the present there has been given no indication at all of the C. P. R. view of the matter.

If any such ceremony is contemplated on their part however they will be proffered the free and full co-operation of the town.

## Comment.

Hon. Dr. Roche was a much approached man in Calgary.

Give the Curling Club a boost Tuesday night and make it one of those Phoenix affairs "rising from its ashes" so to speak, to greater glories.

Pipe deferred maketh the heart sick.

## Hutton Notes

A very enjoyable dance was held at the home of Mr. Tom O'Connor on Friday last. Music was furnished to the large crowd of enthusiasts of the light footstep by Pottinger's orchestra.

A very pleasant time was had.

Marjorie Allen was the guest of Miss Smallwood last week.

Mrs. Joe Bradford sister has been visiting at Hutton for the last week. Mrs. Bradford went as far as Bassano with her sister who is en route to the coast.

Mrs. A. Osterkirch is visiting relatives in Medicine Hat.

George Smallwood was on a flying business trip to Bassano.

La. Col. Lloyd left this morning for a trip to Bassano, Calgary, Banff and Edmonton on business in connection with his Ranch here. He hopes to have more Reg. Short Horses added to his fine herd he brought in last spring in a short time. He is also building a fine cement barn for keeping his thoroughbreds in for the winter which when completed will be the finest in this district.

The Red Deer Threshing Co. will start their machine out on Sept 2nd with J. Fisher at the wheel. They expect about sixty days run.

Nathan Shantz left last week with his "cow boys" for High River country where he has purchased about 300 head of cattle, he is expected to return the latter part of the week.

John Smith and his mother have returned from a business trip to Edmonton.

Fred Vermette left Sunday for Moose Jaw.

Henry Haldsted has just completed a very nice barn on his farm near Hutton.

Pat Burns will have to hunt a new market for his hams as L. J. Kemp is feeling a bunch of hams to supply the bacon market at Hutton.

Horn to Mr. and Mrs. Dick Knowles daughter on Aug. 28.

## Hutton Farmers Finish Cutting Crop

The farmers of this district have finished cutting their grain. The wheat crop east and south east of Hutton is good, oats crop, the straw is rather short but we expected a good yield. The flax crop on the whole is very light as the greater portion of the seed did not germinate until after the rain late in June. Barley crop is good and a heavy yield is expected.

Mr. H. P. Babson is back in Bassano from the Hat and was in Calgary for Labor Day.

Messrs. Hanna and Orosko of the Bank of Commerce spent last week end in Calgary.

Quite a large crowd of Bassano people returned on No. 82 on Tuesday morning after spending the week end at Calgary or Banff. Among those returning were notified, H. B. Jack, G. McKee, J. D. Stiles, J. F. Black, J. Stinson and A. Dwyer and a large number of other Bassano people.

Mr. H. B. Jack of the Union Bank staff has returned from a vacation spent at Winnipeg and Qu'Appelle, Sask.

Mr. W. Oldfield left Bassano this week for the east, where he will spend the winter.

LOST—Fox Terrier, long tail and ears black head with few black spots on body. Believed to be in Dan district. Reward of \$5.00 on returning to W. B. Playfair, Bassano.

One of the teams working on the Walton block excavation was through the trap Tuesday evening, but luckily it was extricated without hurt.

## Around Town

R. R. Blanton was the Osbey's here at the family celebration, hands down on Monday last.

A. J. Cullerton was in town this week making arrangements for the hauling of his crop. He has a splendid yield of corn wheat and barley.

Mr. McMillan of McKinnon and Nesbit, ranchers, will shortly commence the erection of a new residence. McCullery and McNeil have the contract.

Born to Mr. and Mrs. B. Weiler, a daughter.

## A Farm Factory At Bassano

Continued from page 1

the thinking of wells and leasing of farms are phases of development work which are carried out by other parties having no connection with that which has been described. Thirty seven farms are being prepared in the Bassano Colony and sixteen at Soudan. Other colonies are in process of creation at Kenna, Carmanay, Wynyard, Wolfe, and a number in Lethbridge. In the process of this unique colonization policy a total of 263 farms have already been developed, on which 244 settlers are located, and 100 other farms are now in process of preparation. And in the whole undertaking the principles of the organization and the principles which have revolutionized business, commerce and finance, are found in operation, their aim being the elimination of the hardships and disadvantages of the pioneers, the wrenching of old time obstacles from the path of opportunity, and the recognition of the increased movement which results in greater dimensions with each succeeding year.

Mail stages leave: Mondays, Wednesdays and Fridays for Hinton, Stopping on, and intermediate points.

## Cause for Alarm

Loss of appetite or distress after eating—A symptom that should not be disregarded.

It is not what you eat but what you digest and assimilate that does your good. Hence, if the stomach, biliary, and pancreatic glands are weak, the food will cause more trouble than a disorder caused by indigestion.

Constipation causes serious medicine through damaged or slow action of the stomach.

We urge all who suffer from indigestion, or dyspepsia, to try **Reall Dyspepsia Tablets**, with the understanding that we will refund the money paid us without question or formalities if after you use you are not perfectly satisfied with results.

We recommend **Reall Dyspepsia Tablets** to customers every day, and have yet to know of one who has not been benefited. We believe them to be without equal. They give prompt relief, adding to digestive solidity, stimulating the liver, and strengthening the digestive organs, and thus promoting perfect nutrition, and correct biliary symptoms. Three doses, 25 cents, 50 cents, and \$1.00.

You can buy **Reall Dyspepsia Tablets** in this country only at our stores.

**Get Your Canadian Home**  
From the Canadian Pacific

Wonderfully fertile land is offered for sale by the Canadian Pacific Railway Company at prices ranging from \$11 to \$30 per acre. There is no better agricultural land than this virgin Canadian soil. It is unsurpassed for all forms of agriculture, including grain growing, stock raising, dairying, poultry culture, vegetable growing, and general mixed farming. The lands are convenient to railways and markets, and are located in a country of low taxation and delightful climate.

**WENTY YEARS TO PAY**

Under the Company's new policy no land is sold to speculators, but only to those who will occupy and improve it. The terms of sale are now one-twentieth cash and the balance spread over twenty years, with interest at six per cent per annum.

**ASSISTANCE TO FARMERS**

Under certain conditions the Company will advance a loan of \$2000 to new settlers to be used in erecting a house and barn, fencing the land and sowing a well. This loan is repayable on the same terms as the purchase price.
